

## Ringers Competition

What's the best round you could ever hope to shot at Brookline Golf—and what does it take to beat your BWGA buddies? Find out! Join the BWGA ringer, chip-in, birdie and hole-in-one competitions!

Cost is \$8 ~ \$2 per year for each of the 4 competitions. (Cash only)  
Only 18 hole rounds can be counted for the Ringers Program!  
You must have a handicap (or be working toward one) to participate.

At the start of the golf season, you will receive a communication from the Ringers Coordinator, asking for your payment, and reiterating ground rules or explaining anything new. The Coordinator will work with the BWGA Treasurer to keep the funds safe during the season. All prizes for each of the four competitions are cash! Awards have traditionally been made at the Closing Dinner, but this is subject to change. Traditionally, there have been prizes for multiple handicap categories.

**To post any information for Ringers, you must be playing with at least one other BWGA member AND you must be playing at Brookline Golf. Ringers play normally runs from Mat until end of September each year.**

**First, you will play 18 at least once in order to create a baseline Ringers set of scores per hole. After that first 18 hole round each year, you and your opponent should check your scorecards and both of you sign and date them. You should immediately post your score to GHIN on your phone, because **you must leave your signed and validated “baseline” scorecard in the Ringers box in the Ladies’ Rest Room.** Using the information on this card (and all the others like it), the Ringers Coordinator updates her Ringers information for each participating person on a weekly basis. Also, once you have your baseline, you have a personal record of your hole-by-hole scores during your play. For easier tracking of your scores, you might keep a SINGLE scorecard in your golf bag, which you keep marked with your best score for each hole throughout the golf season.**

Subsequently, each time you play 18 at Brookline, with a fellow BWGA member, you can compare your day-of-play scores for each hole, with your Ringers score for each hole as posted near the rest room. If your ‘day of play’ score on hole 9 was a 5 and your Ringers score had been a 6, you have achieved a ringer and you submit a Ringer’s form and request an adjustment to your Ringers scores. This can happen for each of the 18 holes you play. The principal is the same for chip-ins, birdies and any holes-in-one. There is a slip to be completed for each Chip In, and also a different slip for birdies and of course for any holes in one. All slips completed **MUST** be signed and dated.

**Please note that the ONLY person authorized to touch the Ringers Board is the Ringers Coordinator.**

**Note: if you should get a hole in one, you should also notify the Pro Shop and you should notify Massgolf, as there may be some additional recognition lavished upon you!**
